

Bringing the world to the classroom  
and the classroom to life

**Cordially invites you to our event**

**“TECHNOLOGY IN THE EFL CLASSROOM: MAKING THE MOST OF FLIPPED CLASSROOM”**

The growing accessibility and sophistication of educational technologies opens up increasing possibilities for students to explore, share and create content. Flipped classroom model has always been characterized by its flexibility and versatility when designing activities and tasks with which we expect our students to develop superior cognitive abilities and skills. In this workshop, we will analyze how to effectively apply the flipped classroom model and some useful tools to make the most of this method.

**Romina C. Palenzona Beltramone**

Originally from Cordoba, Argentina, Romina has over 18 years of experience in the world ELT. She has a Degree in English Language Teaching from UNRC (Universidad Nacional de Río Cuarto) and TESOL (Teaching English to Students of Other Languages) from Arizona State University. She has also studied a specialization in Digital Marketing in Universidad Austral, Argentina. She has taught English and Literature at both the primary and secondary levels at prestigious bilingual schools and she is an experienced Cambridge ESOL exam trainer. Romina is currently teaching English as a foreign language at Pacifico University Language Center, and academic consultant at National Geographic Learning. Her interests include motivation in learning, using technology in ESL/EFL and project based learning.
